HOW IT WORKS?

Mineral Lab's exclusive minerals are added to the Pool or Spa.

The Mineral Lab generator provides the conditions to ensure you and your family are safe, and the swimming experience is luxuriously silky.

The generator also produces a natural water clarifier, Magnesium Hydroxide.

THE WATER CLARITY WITH A MINERAL LAB SYSTEM IS UNPARALLELED.

De-stress and take your bathing experience to a new level of comfort.....

For thousands of years, humans have travelled vast distances to bath in the Dead Sea's mineral healing waters. High in Magnesium, this luxurious bathing experience, will soothe, relax and heal.

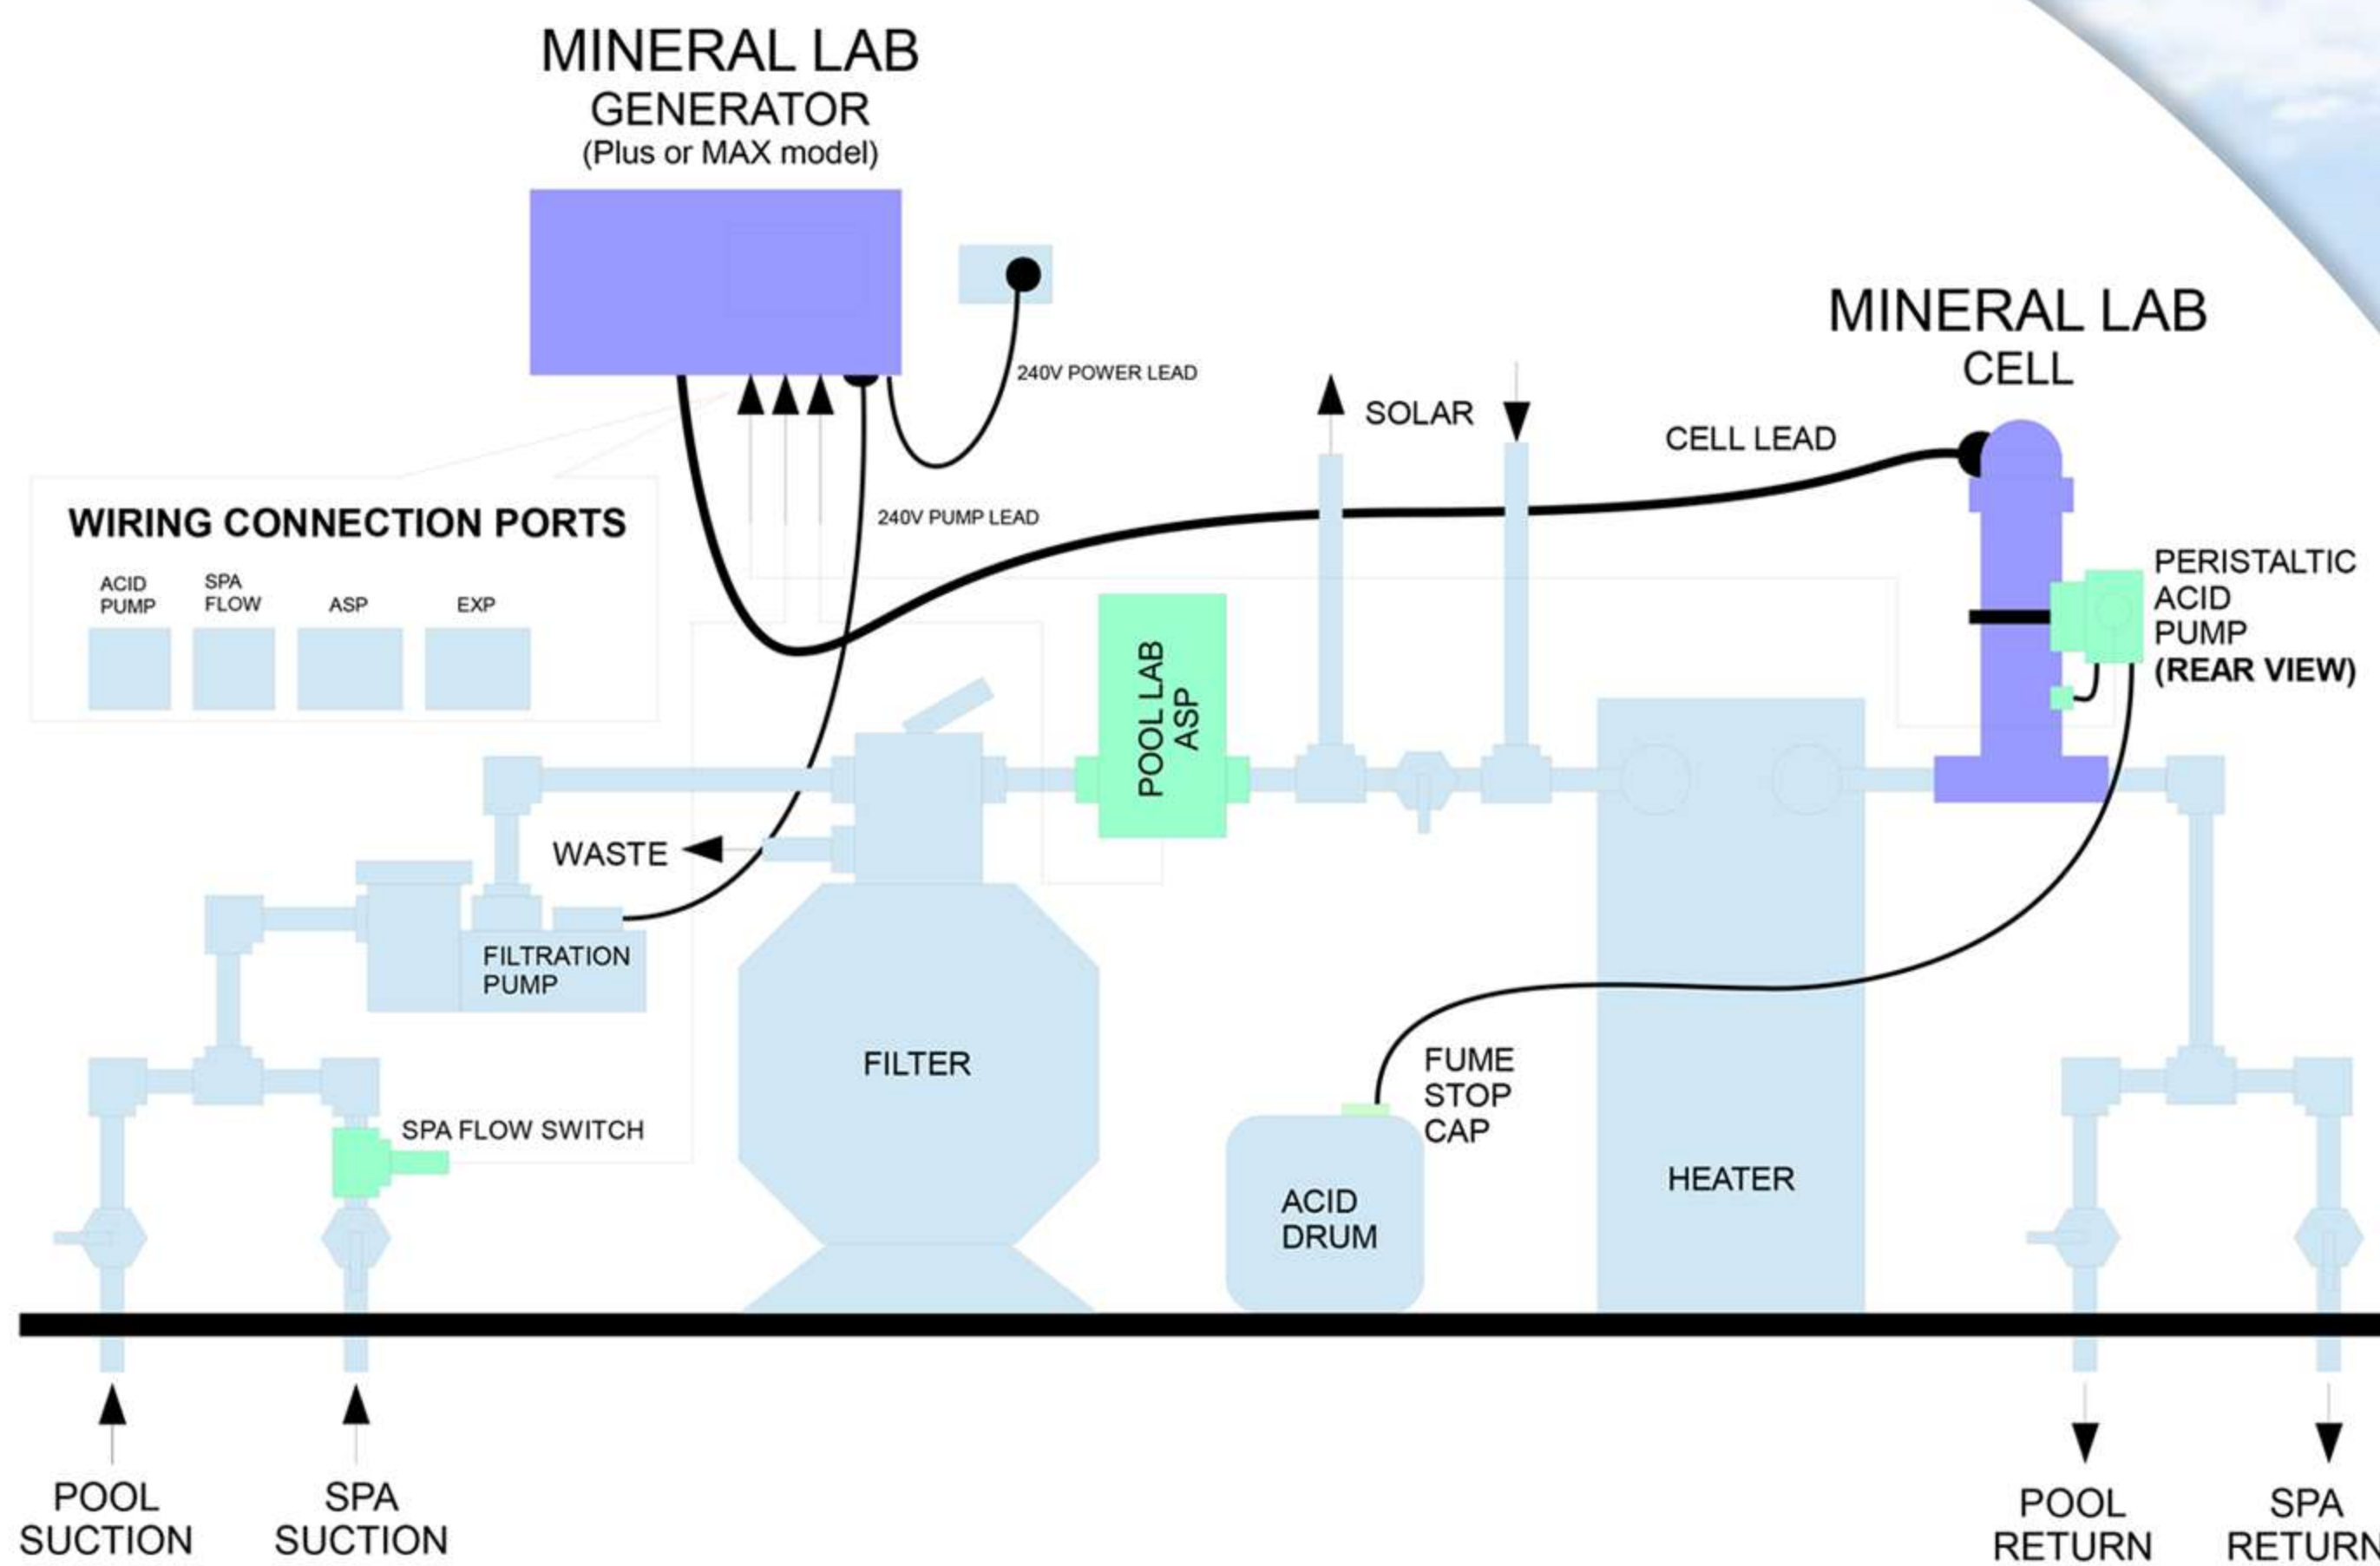

Your **skin, eyes and hair** will retain a luxurious, silky, soft and hydrated feeling after bathing.

Mineral Lab Generators can and should be paired with a **POOL LAB ASP** Auto Sampling Photometer.

POOL LAB is the world's most reliable, accurate and economical water management system.

The patented photometric analyser monitors and controls the mineral sanitiser levels and pH to ensure the safety and comfort of swimmers.

**NO OTHER
MINERAL SYSTEM
IN THE WORLD
CAN PROVIDE
WHAT
MINERAL LAB DELIVERS**

Mineral Lab Minerals are of the highest grade naturally formed deposits. When used in your pool, they provide the most luxurious bathing experience.

The science of Mineral Lab is far superior to other treatment systems you may find.

-  *Highest level of swimmer & operator safety*
-  *Highest level of water quality*
-  *Highest level of water clarity*
-  *Option a Mineral Lab system with a POOL LAB ASP – Auto Sampling Photometer- and you have the world's most reliable, accurate and economical water management system*
